

# The most common Schenk Filters:

ZHF Larger Single vessels or filter blocks:

ZHF/S = Mainly food and beverage applications

ZHF/Z-Primus = Highest performance of any DE filter designs, optimized internal distribution

ZHF/SR = Mainly industrial application with a wide range of particle size and solids weight distribution  
Also designed to be used where the filter cake is the product or high solids discharge is wanted.

ZHF/STR = a ZHF/S filter optimized for internal regeneration of the filter cake (PVPP)

Smaller complete prebuilt filter blocks or units:

Schenk Rekord: = Manual filter blocks with 6 to 12 m<sup>2</sup> filter area.

ZHF/A: = Compact filter blocks with 12 to 20 m<sup>2</sup> filter area.

Schenk NIRO 200 (200 x 200 mm) to 1200 (1200 x 1200 mm) sheet filters

Schenk KFP 470 (470 x 470 mm) to KFP 1500 (1500 x 1500 mm) chamber filter presses
